

Macchine per caffè FIORENZATO

Fiorenzato Ducale 2 Group Deluxe Retro

Fiorenzato has proven to be one of the best-valued commercial espresso machines in the international arena. All their two group or larger commercial espresso machines sport the infamous E-61 group head, large boilers for high steaming capacity, and quality components. In fact, the true beauty of Fiorenzato espresso machines is that most of their models share the same components. This makes it easy for us dealers to stock more of the same parts - which increases chances of availability to you, our customer.

- Electronic programmable touch pad with up to 4 settings for each group head - controls are waterproof encased to prevent water damage
- Thermally balanced E-61 group heads for proper espresso extraction - hot water actively keep the group heads hot
- Dual purpose gauge exhibits pump water pressure and boiler steam pressure • Open face design
- Finger grips on steam and water wands prevent burning
- Two multidirectional steam wands on sides and one water wand in the centre
- Electronic dosage of hot water through water wand allows you to pre-program appropriate amount of hot water for your group handle rinsing or hot tea, etc.
- Ergonomic control knob for steam valve
- Passive cup warmer plate and drip tray made of polished stainless steel
- Full size internal sirai boiler pressure regulator
- Internal safety reset switch
- Hot water economizer minimizes lost steam pressure when delivering water through the water wand - many other makes of commercial espresso machines uses a lot of steam power to force the water out of the water wand
- Durable stainless steel framework prolongs useful life
- Designed for easy access to most parts minimizing labour costs
- Sight glass indicates water level in boiler
- Automatic water refill circuitry maintains water level in boiler
- Three way power switch allows boiler refill with heating element "off" or "on"

Size H=450mm D=530mm W=770mm

Power = 3500W

Weight = 69Kg
